

Erick Leví Tamaríz Cortés

Puebla, México • (+52) 222 744 8864 • erletaco@outlook.com • [linkedin](#) • [Portfolio](#)

Front-End Developer with 4+ years of experience, specializing in the React ecosystem, React Native, Next.js, and TypeScript. Experienced in guiding multidisciplinary teams, establishing engineering standards such as CI/CD, testing, and code reviews, optimizing client-side performance, and defining integration contracts with Backend teams. Focused on translating business objectives into robust, maintainable products with fast iteration cycles.

PROFESSIONAL EXPERIENCE

ZENTRO

Front-End / Mobile Developer

Abr 2026 - Present

- **Technical Contributions:** Defined client-server integration standards and REST/GraphQL API contracts with the Backend team, optimizing pagination and caching strategies.
- **Performance & Impact:** Diagnosed and resolved critical rendering and local storage bottlenecks, reducing load times from 30s to ~2s through virtualization with FlatList and memoization strategies.
- **Stack Modernization:** Led the adoption of TanStack Query for server-state management and caching, significantly reducing latency and redundant HTTP requests.
- **Design System & Scalability:** Build a library of decoupled reusable components and a schema/configuration-driven dynamic form engine, accelerating the development of new views across the team.
- **Mobile Release & Payments:** Oversaw the cross-platform mobile lifecycle (iOS/Android) integrating payment gateways (Stripe, Openpay) and ensuring compliance with App Store and Google Play guidelines.

B LIFE

Front-End Team Lead

Aug 2024 - Jan 2026

- **Management & Mentorship:** Provided technical leadership to Front-End developers and facilitates code reviews (PR reviews) focused on code quality, security and TypeScript and React best practices.
- **Engineering Governance & Processes:** Established the GitFlow workflow, versioning standards, and technical architecture documentation, reducing incidents related to production branches.
- **Strategic Alignment:** Served as a technical liaison between Product and Backend teams for the refinement of complex requirements, development effort estimation, and early mitigation of technical blockers.

Front-End Developer

Feb 2024 - Aug 2024

- Developed Front-End interfaces and features for e-commerce platforms and internal business systems.
- Built reusable components using React, Next.js, TypeScript and TailwindCSS improving consistency and maintainability across applications
- Integrated Front-End applications with REST APIs for data consumption and management.
- Implemented Server-Side Rendering (SSR) and performance optimizations, achieving up to a 40% improvement.
- Developed internal mobile applications with React Native to support business operations.
- Integrated product scanning functionality using Zebra PDA devices and barcode scanners.
- Collaborated with Backend developers on service integration and technical requirements.

SOLENCO

Full Stack Web Developer

Aug 2023 - Feb 2024

- Development of ERP system modules using Python and Django.
- Implementation of MVC architecture and development of business logic for various system modules.
- Development of a support ticketing module with task assignment and notification system.
- Implementation of an invoicing module with XML file processing.
- Development of administrative dashboards for visualizing metrics, sales, and expenses.
- Development of an e-commerce interface using React, Redux, and Bootstrap.
- Integration between frontend and backend through the consumption and development of REST APIs.

TECHNICAL SKILLS

React	React Native	NextJs	TypeScript	TailwindCSS	GraphQL
Jest	Git GitHub	Redux	Panda-CSS	API REST	Zustand
HTML	CSS	TanStack Query			

SOFTSKILLS

Technical Leadership	Problem Solving	Effective Communication
Teamwork	Critical Thinking	Proactivity

LANGUAGES

SPANISH	ENGLISH
